and still growing!

e-file. It's as easy as 1-2-3!

1 Step 1 - Get all your tax information together

- You'll save time and won't have to
stop in the middle of preparing your return to find
a missing document. Here is some of what you'll
need:

- Social Security numbers for yourself, your spouse, and any dependents,
- W-2 forms from all employers are required for yourself and your spouse,
- 1099 forms for Dividends, Retirement, or any 1099 forms with Income Tax Withholding,
- Receipts for expenses for Itemized Deductions (Schedule A),
- Bank Account numbers (for a fast refund, or to pay electronically).

2 Step 2 - Choose the e-file method that works for you:

- Tax Professional
- Personal Computer
- Free File

3 Step 3 - e-file

- **Tax Professional** - If using a Tax Professional, be sure to take all your information with you, and don't forget to ask for e-file. Go to irs.gov/efile to find an Authorized IRS e-file Provider near you.
- **Personal Computer** - Just answer the simple questions in your tax preparation software, and the software will do the rest for you. There may be a modest fee for e-file. For faster refunds, or to pay when YOU want to, have your bank account number handy.
- **Free File** - Check www.irs.gov/efile to see if you meet eligibility requirements.

NOW RELAX. You're done.

And tell a family member
or friend that e-file is
the smart way to file
their federal and state
income tax returns.
